electrical waste

Your electrical waste experts

START CONTAINING YOUR DATA WITH
DATA POD

1. Data Pod gets delivered and you can start filling it.

**2.** Complete the inventory form for each item added.

3. When your Data Pod is full, secure it with the uniquely numbered security tag.

4. Please call 03330 433 033 to arrange collection

5. Your collection will take place within 6 working days and be taken to a dedicated WEEE plant.

6. When the contents have been destroyed you will recieve a certificate of destruction.

7. It will then be sent back to you, waiting to be filled again.

PLEASE REMEMBER TO:
Fill out the inventory form on the opposite side of this sheet for each item added to your Data Pod

WHY USE A DATA POD?

The General Data Protection Regulation (GDPR) is a legal framework that sets guidelines for the collection and processing of personal information of individuals within the European Union (EU).

Any breach of GDPR can be fined up to 4% of annual global turnover or €20 million

We can provide a Data Pod which can hold and store electronic equipment that contains relevant and sensitive data.

FOR EXAMPLE:

Computers   Hard Drives   Laptops   Phones   Tablets   Pen Drives

and many more

It can then be securely transferred to a facility where the equipment is safely and securely shredded.

SECURITY ASSURED

GPDR COMPLIANT

DATA POD CONTAINER INFO

- Stackable
- Size: 600mm x 400mm x 365mm [65 litre]
- Made from 100% recycled materials

Simply use the security tag provided to protect the waste in the container. We will collect from your site with our own transport and it will be transported to our dedicated WEEE plant for shredding.

- Duty of care paperwork included
- Collected from any postcode in mainland UK within 6 working days

The tag has a unique code which allows your waste to be traceable from point of collection to end of life shredding. If required we can provide a certificate of destruction for any audit purposes in the future.

Enhanced Service Options

In addition to the Data Pod we can offer a full secure data and asset management service. This will help to ensure you are compliant with GDPR.

- All drivers are DBS checked
- Secure data erasure using best in class software
- Certificate of destruction supplied for your records
- Witness disposal live on-site or via a CCTV recording
- On-site destruction of many devices
- Devices can be re-deployed
- 48 hour national collection service
